The 2002 Census of Agriculture was taken to obtain Agricultural Statistics for Alabama and each county in the state, as well as every county and state in the Nation. The 2002 Census introduced new methodology to account for all farms. All Census items published for 2002 were adjusted for undercoverage. To provide comparable data, 1997 Census data were also adjusted.

The Census data provided in this bulletin (pp 94-96) represent only a small portion of the total information collected and published in the 2002 Census of Agriculture. Log onto our website (<http://www.usda.gov/nass/>) and click on "Agriculture Census" to see all the census numbers for the U.S. and each state, including Alabama.
